05-01-2026

- Implemented OTP-based login functionality.
- Altered the Users table in the database to add an OTP column for storing OTP values.
- The OTP is displayed on the frontend and simultaneously stored in the backend database for verification.

06-01-2026

- Made necessary modifications to the existing codebase.
- Reviewed and understood the authentication implementation.
- Created a structured understanding table for:
  - authApi (Frontend API layer)
  - axiosConfig (Axios configuration and interceptors)
  - AuthController (Backend authentication logic)

07-01-2026

- Gained a clear understanding of the frontend Home page concept.
- Learned and understood the fundamentals of payment integration.
- Attempted to implement the payment integration

08-01-2026

- Created the backend portion of the payment using the stripe account

09-01-2026

- Created the frontend portion of the payment
